DETAILED ACTION

1. Applicant's amendment and accompanying remarks filed July 9, 2008 are acknowledged.
2. Examiner acknowledges amended claims 1 and 8.
3. The rejection of claims 1-6 and 8-15 under 35 U.S.C. 102(e) as being anticipated by Senoo et al., U.S. Patent Number 6,517,957 is withdrawn due to applicant's argument.
4. The rejection of claim 7 under 35 U.S.C. 103(a) as being unpatentable over Nakaya et al., U.S. Patent Number 5,792,551 is withdrawn due to applicant's argument.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 1-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Richter et al., U.S. Pre Grant Publication 2005/0067951.

Richter discloses aromatic amine derivatives with the general formula:

Art Unit: 1794

(see abstract). The reference also discloses that the aromatic amine derivatives can be used as a hole transport material in electroluminescent devices (see paragraphs 0010 and 0011). The reference reads on the present claims when: $n=1$ (see paragraph 0013); Ar is biphenylene or terphenylene and R1-R4 can be the same or different and can be phenyl, naphthyl, anthracenyl or biphenyl as per the present claims (see paragraph 0014). Paragraphs 0048-0050 of the reference disclose different embodiments of the electroluminescent device that read on present claims 2-6 and 12-15.

Response to Arguments

7. Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
